Way forward:

Late Shri Madhukar Dhas- Dec 2016
Founder: Dilasa Sanstha

The dream of Dilasa's founder late Shri Madhukar Dhas was bringing rural prosperity through innovative activities knitted around conservation and meticulous use of natural resources those are very close to living organism.

Dilasa's programme are mainly focused in the areas of conservation of natural resources, watershed management, rain water harvesting, environmental awareness, livelihoods and sustainable development. Dilasa strongly believes that conservation of natural resources can only be achieved by involving local stakeholders, providing them with employment opportunities and facilitating them adopt a sustainable lifestyle in harmony with nature.

Agriculture is the potent means of livelihood for majority of people in the operational area. Present agriculture has been trapped in vicious circle of various issues and problems involving rain-fed agriculture, declined support system, reduced soil fertility, disappearing bio-diversity etc. Taking in to account all these, Dilasa works for finding out practical, innovative solutions to lift farmers out of this state of distress. Yearlong agriculture and continued work to each of the hands could only be possible if water is made available for irrigation purpose. Therefore, Dilasa emphasizes on harvesting of rain water and promoting diversified agriculture.

In order to achieve comprehensive development of the community, a collaborative approach is needed from funding agencies, financial institutions, specialists, Government Departments and of course the local community as otherwise the interventions might not yield the expected results.

Dilasa is focusing its attention on creating sustainable livelihood for distressed farmers by laying special emphasis on protective irrigation through Phad project, Bodi Phad, Doha models, Farm pits, Farm ponds and Minor Irrigation projects by way of arresting and storage of rain water. It is merely impossible to improve crop productivity under dry-land condition and in order to meet the gap of dry spells during rainy season protective irrigation is must. Facility for seasonal irrigation especially bridging the gap of dry spells will definitely enable survival of crops and also enable the farmers to grow second term crop during the year. This all will support in improving the overall economic conditions of farmers and ultimately preventing suicides of Farmers in 6 distressed districts of Vidharbha.

Networking approach: Dilasa is became a platform for small NGO in the region

In order to disseminate Dilasa's successful models in larger area for effective implementation as well as enhancing capacity of small NGO's Dilasa works in partnership with 152 organizations from Vidharbha and Marathwada region.

Approach Mechanism:

The local community in the operational area is encouraged to participate in the development process including that of identifying local issues, planning, developing and implementing of suitable programs with the support of Dilasa. Effective implementation of any programme/activity leads towards positive results therefore, maintaining good rapport with the people in its operational area especially farmers and women and all the developmental activities are being implemented with active participation of community.

Project Area Profile:

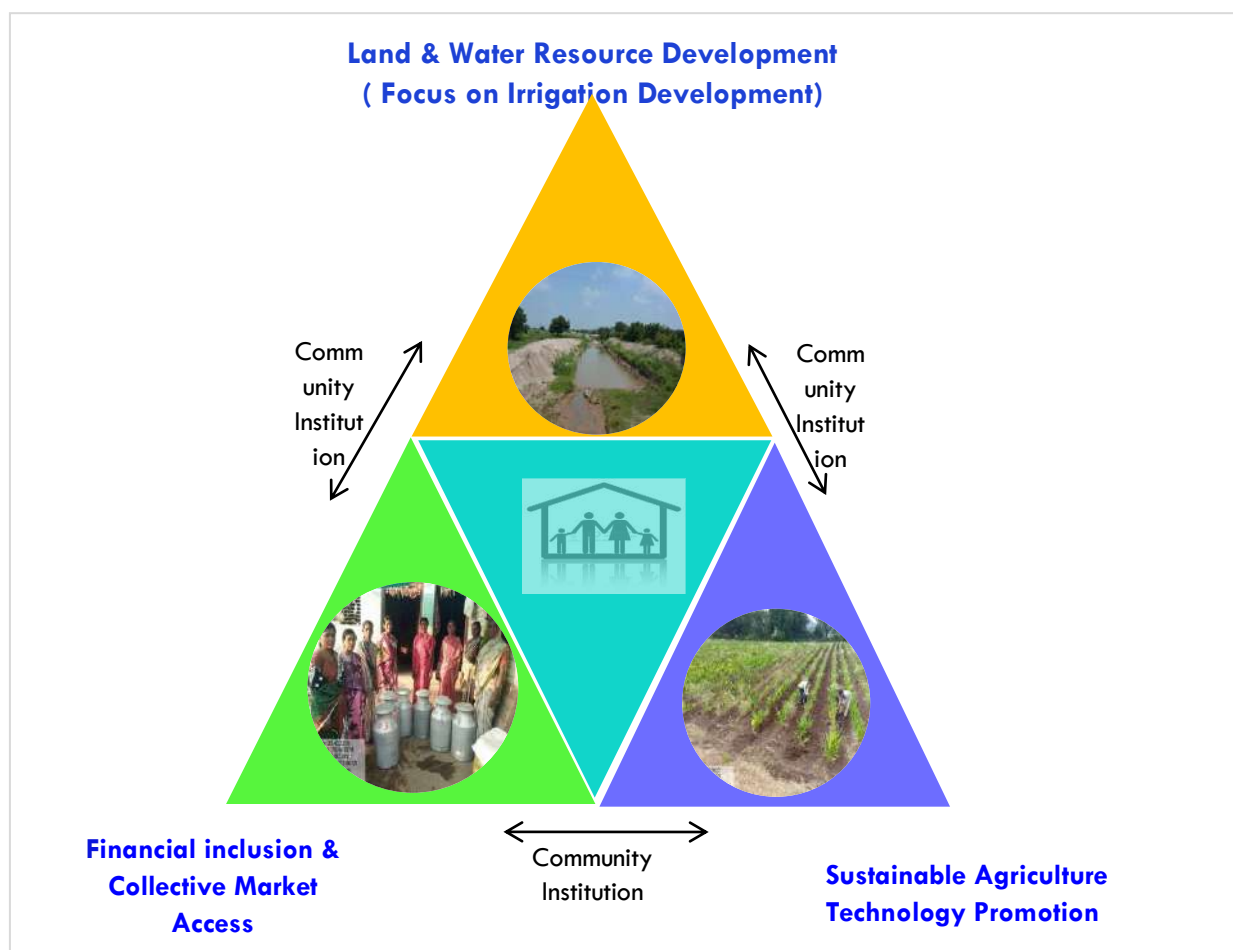

Dilasa Ideology of Livelihood Model: Our Development approach

Dilasa Sanstha is strongly believe in thought that natural resources such as Land, Water, Forest, Soil are linked to the livelihoods of rural community. These natural resources are directly linked to agriculture, which still supports 60% population of our country. Hence effective conservation and management of these natural resources have greatest significance. Dilasa livelihood enhancement approach evolved from above scenario and comprises of three pillars which are natural resources augmentation, promotion of sustainable agriculture practices and financial inclusion with entrepreneur promotion. (Credit, collectives marketing, CHC,ABC etc)

The community institution formed by Dilasa are fundamentals to administered this approach of livelihood enhancement. Dilasa puts special emphasis on women and landless families in this model.

Dilasa programs are holistic and work on

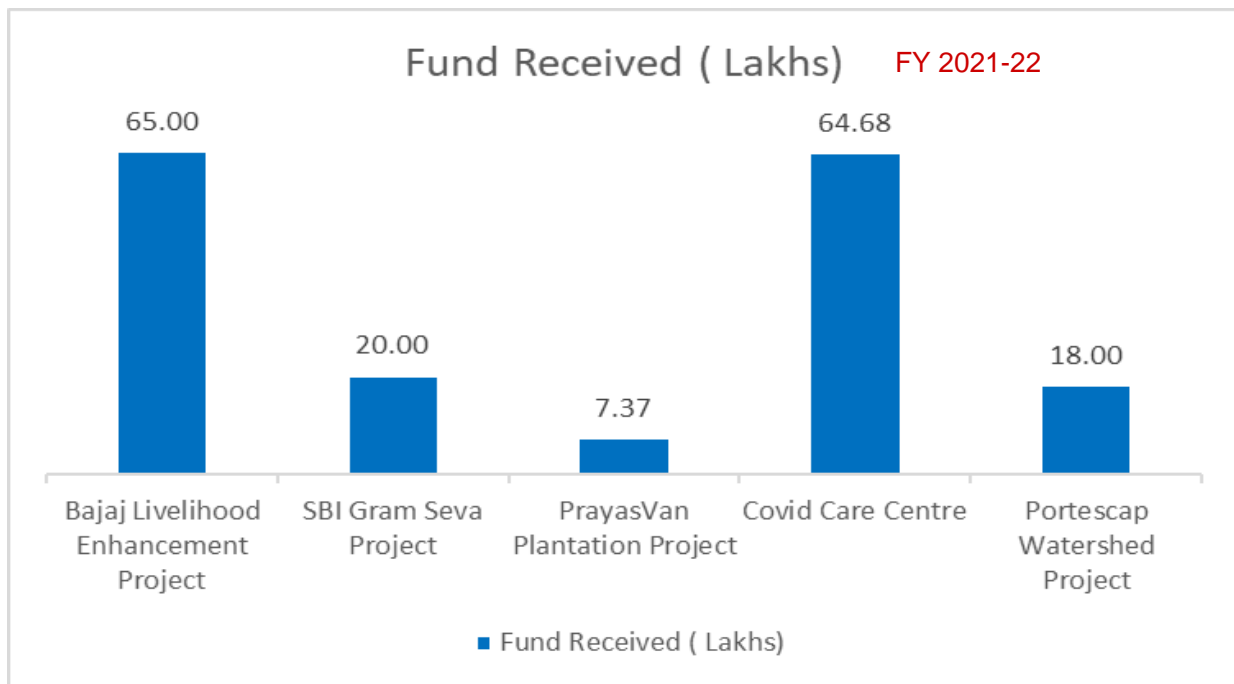

- Creating long lasting asset base at Family and Community Level as means of production.
- Ensuring Institutional support through CBOs at all levels
- Providing comprehensive solution package (Farm to Collectives)

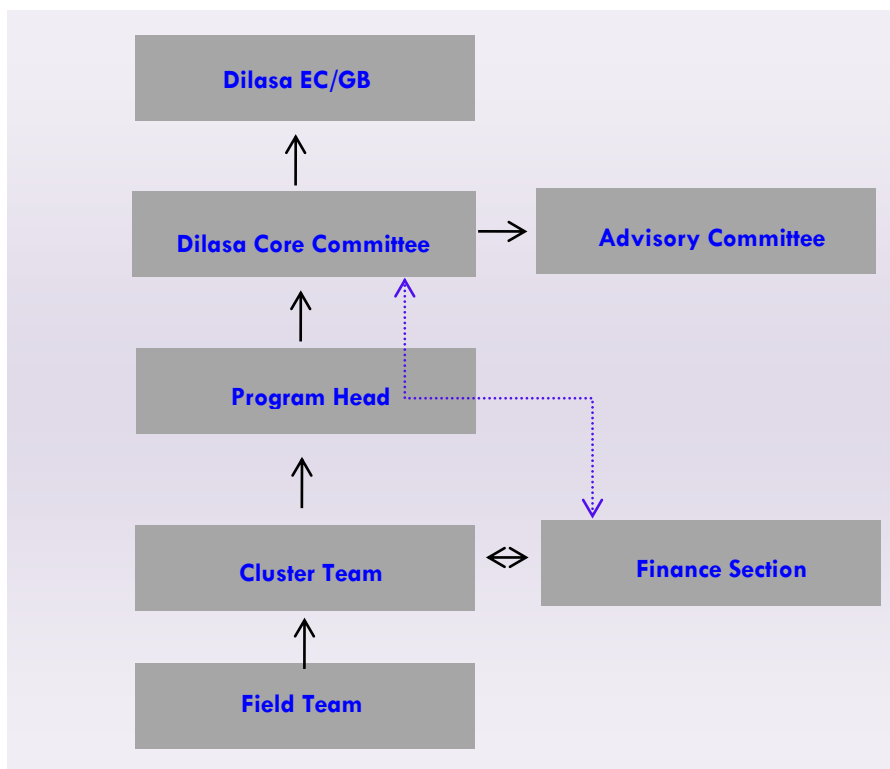

Financial Overview FY 2021-22

Project Report Continue.....

We take this opportunity to extend sincere thanks to all the funding partners, donors and well-wishers for providing financial and moral support for achieving our objective. We extend sincere thanks to our auditors for rendering their services and making the financial system stronger. Dilasa also extend its sincere thanks to the villagers and workers for their active participation in this noble work of service to society. We also extend our sincere thanks to those all who are directly or indirectly involved in Dilasa's endeavour but whose names have been escaped by oversight.
